Spreading theses of propaganda - a fan of "Russian peace" will be tried (PHOTO)

The Slobid District Prosecutor's Office of Kharkiv has approved and sent to court an indictment against a 55-year-old man for distributing materials that justify and deny the armed aggression of the Russian Federation against Ukraine (Part 2 of Article 436-2 of the Criminal Code of Ukraine).

According to the investigation, the man from Kharkiv, having anti-Ukrainian views, distributed posts in support of the Russian Federation on the Internet. For this, he used the Odnoklassniki social network, banned in Ukraine.

In particular, the man reposted a video from a group dedicated to the so-called "officers of Novorossiya". In the propaganda videos distributed by the accused, the Russian military were presented as liberators protecting the "civilian population".

The heroes of these videos broadcast the Kremlin's propaganda that Ukraine allegedly "was and will be Russian land", claimed that "this land will not be given to NATO", and also assured that "Russian soldiers and volunteers understand what they are dying for".

These posts were aimed at forming a positive attitude of the audience towards the aggressive actions of the Russian Federation on the territory of Ukraine and discrediting the Armed Forces.

The case will be heard in the Comintern District Court of Kharkiv.

The pre-trial investigation was conducted by the investigators of the investigative department of the police department No. 2 of the Kharkiv district police department No. 1 of the GUNP in the Kharkiv region under the operational support of the SBU Department in the Kharkiv region.

Note: in accordance with Art. 62 of the Constitution of Ukraine, a person is considered innocent of committing a crime and cannot be subjected to criminal punishment until his guilt is proven in a legal manner and established by a court verdict.
